### TODAY'S BROADCAST

#### What will a Mars habitat look like?

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book. It has survived not only five centuries, but also the leap into electronic typesetting, remaining essentially unchanged. It was popularised in the 1960s with the release of Letraset sheets containing Lorem Ipsum passages, and more recently with desktop publishing software like Aldus PageMaker including versions of Lorem Ipsum

## Being positive..

30th May 2016

oday again it was one of those moments when I was having a discussion with my wife over morning coffee about why people behave in a certain way.

esterday morning, my wife got a call from my sister; she was planning to come down to meet us being a Saturday. She said that she would be here by around 11. As it would be almost lunch time my wife insisted her to have lunch with us so that we could spend some more time together. My sister though didn't agree, she already had her plans set; first to meet us for an hour or so and then attend a meeting with a client, go back home and have lunch with Mom. Having heard this both of them agreed to keep the meeting short and sweet without extending it to a lunch. Call ended. After the call, (as anyone could have reacted) my wife was a little upset over the fact that my sister didn't agree for lunch (which my wife thought that she could have easily agreed for).

So this was the backdrop of the entire discussion me and my wife had over the coffee about why people behave in a certain way. As I write this I wonder how many times we live through such moments every day, and I realize the way in which we react to these moments play a deciding factor in shaping up the future course of incidents in our day/life.
